Unique Worldwide Project Makes Nazi Era Eyewitnesses Approachable One Last Time

As part of a major speaking tour across the United States, author and award-winning filmmaker Bernhard Rammerstorfer presents his latest book and DVD entitled "TAKING THE STAND," accompanied by Austrian victim of Nazi tyranny Mrs. Hermine Liska. Hitler's attempted reeducation of Mrs. Liska tore her from her parent's custody while she was a child. Learn how she resisted an intense campaign of coercion and humiliation at the hands of Nazi authorities while only a pre-teen.

Participate in a unique project which merges questions submitted by youths and students worldwide with Holocaust survivors and captures the candid answers in live interviews.
